Pink Flowering DOGWOOD

This beautiful tree is very popular and in the spring is covered with flowers of a deep rose color; good in a group or as a specimen—when planted near a white dogwood it is more showy. One of our best flowering trees.

ROSES

Our Roses are Monthly Blooming and will bloom the first year after planting, except the Climbing Talisman and Pauls Scarlet. Our varieties are good and a fine assortment of Colors.

K. A. VICTORIA

The cream-white buds

RED RADIANCE

Cerise-red blooms.

AMI QUINARD

Dark maroon or velvet rose.

POINSETTIA

Velvety poinsettia red.

GOLDEN CHARM

Deep yellow.

LUXEMBOURG

A rich golden yellow rose, vigorous grower, branching habit.

PINK RADIANCE

Silvery pink, shading to salmon.

EDITOR McFARLAND

Large, glossy pink.

PRESIDENT HOOVER

Cerise, orange and gold.

TALISMAN

Large buds of vivid orange red.

CLIMBING TALISMAN

Buds are orange-yellow.

PAULS SCARLET

Brilliant large scarlet flowers.

Apples

WINTER APPLES

- **105 DOUBLE RED DELICIOUS**
The new, superior Delicious. Fruit extra large, bright red all over; flesh white and fine grained, rich, melting and juicy. Of the very highest quality. Tree young bearer, sometimes three years.
- **106 YELLOW DELICIOUS**
A golden yellow apple with remarkably good flavor, popular for eating during the fall and winter months. Trees bear young and abundantly. Splendid keepers.
- **107 STAYMAN WINESAP**
An extraordinary market apple. Keeps year around in storage. Bright, red skin and firm, juicy, fine white flesh. Excellent for eating, cooking, canning, shipping.
- **108 RED WINESAP**
A red apple with excellent flavor and one of the best apples to put up for home use or to put on the market. Comes into bearing early; very long keeper, cold storage variety.
- **109 RED ROME BEAUTY**
Large winter apple of good quality, has a solid deep, red color, thick skinned, stands handling well, and a good keeper, bears young.

SUMMER APPLES

- **101 ANOKA**
Noteworthy for its beautiful red striped fruit and early bearing, often producing apples the second year after planting. This apple comes to us highly recommended. Fruit excellent quality.
- **102 YELLOW TRANSPARENT**
Earliest and best, white, tender, and juicy, sprightly subacid grows rapidly, bears young, and is very profitable. August.

FALL APPLES

- **103 RED JONATHAN**
A beautiful, bright red apple, of excellent quality and highly flavored. It is tender, juicy and rich. A splendid tree for home orchardist.
- **111 GRIMES GOLDEN**
An extra fine quality apple. Golden color, good keeper; tree vigorous; productive.
- **112 IMPROVED YELLOW HORSE**
The best late summer, yellow cooking apple. Large, yellow, fine flavor.

"The New Almeda"

BOYD'S NEW SENSATIONAL APPLE DISCOVERY—Tennessee's own patent (No. 327) apple.

100 THE ALMEDA APPLE (It has never missed a crop in 20 years)

It is a large, smooth, yellow apple that starts bearing about the middle of July. It is fine for eating and also an excellent cooking apple; is an annual bearer; a disease resister and a good cooking apple and it is self fertile. This apple has many good qualities and believe that it will prove very satisfactory for home use, or in commercial orchards.

5-N-1 Apple Tree

Scientifically Budded to Produce 5 Kinds of Apple Varieties All on One Tree During the Season

150 FIVE-IN-ONE APPLE TREE

Just picture an apple tree in your front yard with five different kinds of apples bearing on them. This is what you get when your 5-N-1 tree starts bearing. Those luscious varieties that we bud into the limbs of this tree includes Double Red Delicious, Red Jonathan, Yellow Delicious, Anoka and Yellow Transparent. Start producing in early June and keeps bearing throughout summer—makes a wonderful gift for your friends.

PLANT AN ORCHARD FOR YOUR CHILDREN'S SAKE

GROW *Boyd's* PEACHES

—for the MARKET
—for the HOME

The reason we can offer these trees at such low prices is because we grow them here in our nursery. The peach is one of the surest crops in this section and our trees will bear fruit after being planted two years.

Peach Trees NEW VARIETIES

197 DIXIGEM

This new peach is medium sized. The flesh is yellow firm, fine texture, of excellent flavor. It is almost a freestone when fully ripe and is usually semi-free when at the shipping-ripe stage.

198 DIXIRED

A new early-fleshed peach, about three fourths is covered with a bright attractive red blush, the flesh is yellow, firm, medium texture, and of good flavor, medium size and self fertile. Ripens about two weeks ahead of Golden Jubilee.

199 GOLDEN EAST

Originated at the New Jersey Experiment Station, ripens early mid-season, good color, large yellow-fleshed, freestone peach, ripens two weeks ahead of Elberta.

201 THE SULLIVAN EARLY ELBERTA

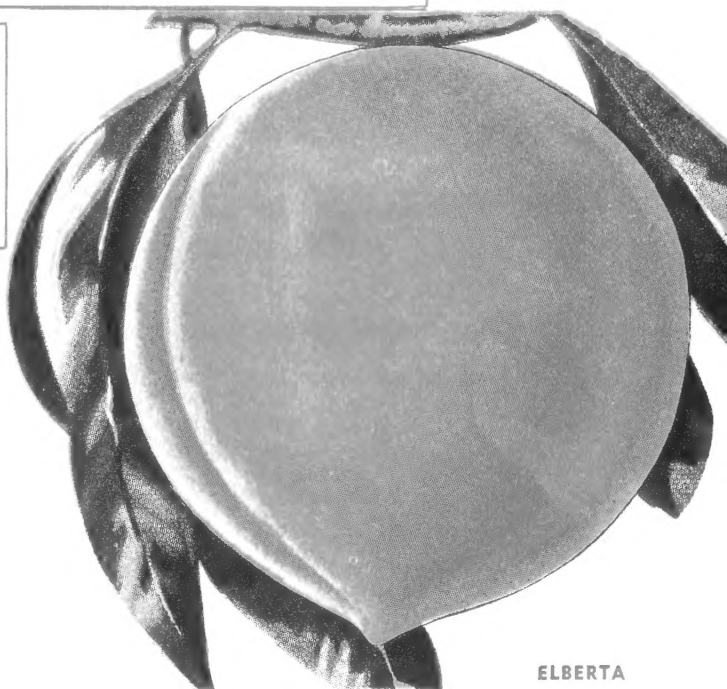

It is a sport from the Early Elberta but is larger and considered a better keeper by orchardists that have tried them. A nice yellow freestone, firm juicy and of high quality.

PRICES ON PEACH TREES

NOTICE — Almond, Apricot, Peach and Plum trees cannot be shipped into the following states: Arizona, California, Idaho, Nevada, Oregon, Utah and Washington.

Our Fruit Stock has the advantage of both cold and warm climate, very often the temperature drops to zero and will rise twenty degrees the same week. Therefore, by actual growing condition, you have a fruit tree that is fitted for all weather, when you buy it from us.

ELBERTA

REGULAR VARIETIES

202 THE NEW RED HAVEN

Called by some famous growers as "The World's Rarest Peach," Red Haven has been tested by several large peach growers. It ripens early, colors bright red before ripening. Trees bear young and fruit is freestone and self-pollinating. Flesh is fine, golden, sweet, juicy.

211 BELLE OF GEORGIA

Large white fruit with decided blush. A very heavy and regular bearer.

207 J. H. HALE

Flesh yellow and sweet. Excellent for canning and shipping. Largest commercial freestone.

212 GOLDEN JUBILEE

Fruit is large, bright apricot-orange in color with brilliant red cheek. A delicious flavor.

206 HALE HAVEN

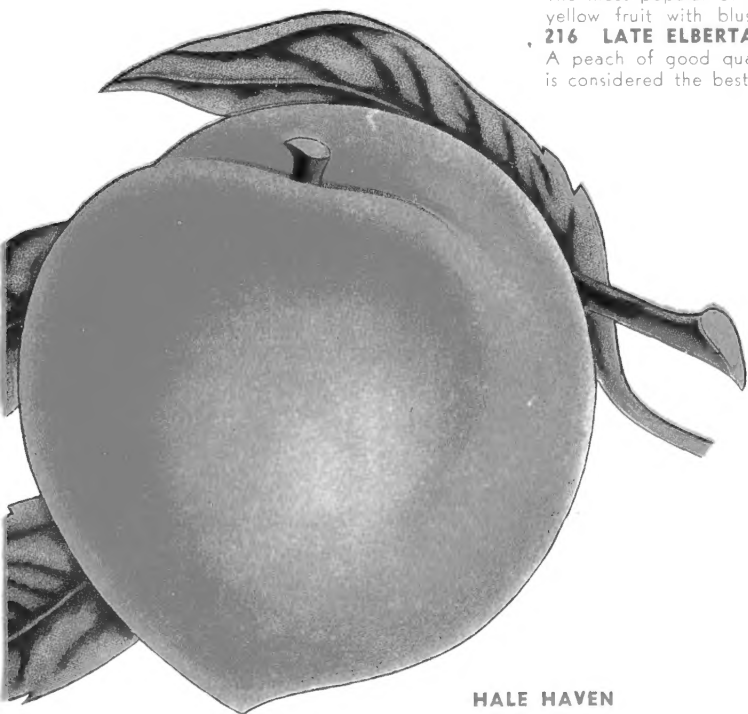

The one peach that has never failed to yield a full crop. A cross between the J. H. Hale, which is so large, and the South Haven, which is very fertile.

204 ELBERTA

The most popular of all peaches. Every orchard should have a few of these trees. A large oblong peach, yellow fruit with blush.

216 LATE ELBERTA

A peach of good quality. Big, yellow freestone, very productive and fine for canning and freezing, it is considered the best late peach.

HALE HAVEN

PLUMS

No matter how small your planting space you can find room for a few plum trees. They will pay a big dividend in fruit that is ideal for canning and are extra fine to eat from the hand. Plums thrive on almost any land, bear a heavy crop of fruit that seldom fails.

350 ABUNDANCE

Tree a strong grower and an early and profuse bearer. One of the best known plums.

351 BURBANK

Fruit large and vigorous, productive, bears young. Excellent quality, cherry red.

352 KELSEY JAPAN

Color greenish yellow, flushed with red, very large.

353 WICKSON

One of the Burbank's creations, fruit largest of the Japans. Handsome deep, maroon red, firm, long keeper and fine shipper.

PEARS

250 BARTLETT

Bears early, very juicy and highly flavored. Strong grower, bears abundantly.

251 GARBER

Fruit large, juicy, melting, rich and fine. Does well nearly everywhere. September and October.

252 KEIFFER

Large, golden yellow, often blushing in the sun; one of the best for preserving and canning.

253 PINEAPPLE

Has a distinct pleasing odor, resembling that of the pineapple. This pear is a very attractive yellow with conspicuous brown specks.

Cherries

SOUR CHERRIES

263 EARLY RICHMOND

It is the good dependable variety that yields such marvelous crops in the garden. The fruit is dark red, tender, juicy and of excellent quality.

264 MONTMORENCY

A large, light red cherry of the Richmond class. It is larger and more solid, about ten days late.

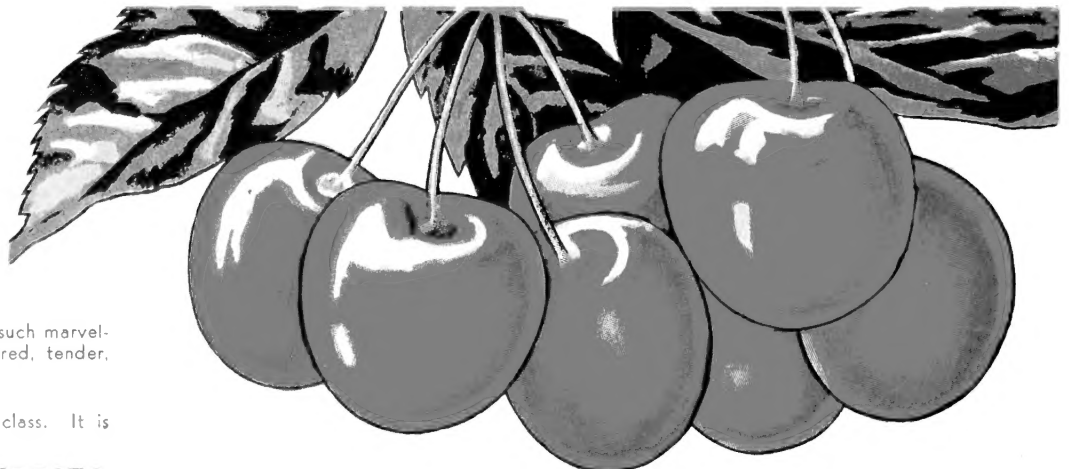

SWEET CHERRIES

260 BLACK TARTARIAN

A favorite sweet cherry, well adapted to almost any soil and climate. Lives to an old age, fruit medium size, brownish black, flesh purplish red, juicy, rich.

"Introducing the New Orient Pear"—

Boyd's are proud to introduce to their customers the new ORIENT Blight Free Pear introduced by Dr. Brooks D. Drain and associates at the University of Tennessee Experiment Station. There has been a great need for a good blight free pear for many years and this is the result of several years' work by the U.T. Experiment Station. The Orient is the most promising pear that has been introduced in the South for many years. It is a cross between the European and Asiatic Pear. Fruits uniformly and keeps excellent. Good for canning, preserving and eating. Foliage is dark green, very attractive and remains on the trees until late. It is a vigorous grower. We highly recommend this pear to our customers.

Plant Forest Tree Seedlings for Security

As Well as for PROFIT, SHADE and BEAUTY

War Veterans

You have done a wonderful job in beating the Nazis and the Japs at their own game of war, you have seen literally thousands of homes and buildings destroyed all over the world from this terrible war. All that have seen this terrible destruction know that it will require an unlimited supply of lumber, to rebuild just the homes for the countries that have been overrun by the enemies plus the destruction our boys did for the enemies' cities and homes. According to one of the copies of LIFE MAGAZINE published in December, 1945, it will take over 5 years to build enough homes in the U. S. A. that is now needed. According to their estimates, this country needs over 5 million new homes alone. **WILL THERE BE ENOUGH LUMBER?** Perhaps there will be enough for this emergency, but lumbermen say that the supply of lumber will be just about exhausted. You can help by planting tree seedlings, and by helping educate other people to take care of their forest.

"What can I do?" is the slogan of all patriotic citizens in these perilous times. Why not join the army of reforestation? We need billions of trees planted throughout the United States for the use of shade, timber, fuel, to help provide moisture, to stop soil erosion, and to supply homes for insect-eating birds. There is hardly a farm without a bit of idle land that could not be planted to Forest Tree Seedlings.

That our timber will be gone before we can grow trees cannot be disputed, and to take care of that situation, no farm should be without a grove of Forest Trees. The expense is very small, it pays well in shade and timber, and may mean a good estate for your children in years to come.

Well rooted seedlings that will grow fast will make shade and also grow into trees for lumber, and other valuable uses.

The Late President Roosevelt Told Young Farmers, Before the Past War

in a convention at Washington, D.C., and before his death, "There is only about thirty or forty years' timber supply in the United States." He also said, "We are using lumber about four times as fast as it grows. Now the Late President Roosevelt was a well-informed man and he could see down the future time of life and we should take advantage of this warning and do something about it.

HICKORY NUTS. Very valuable for market in nuts and also the timber is very valuable for spokes, fence posts, and handles of wood for farming tools.

RED BUD (Judas Tree). Small, artistic, round-headed tree. Leaves heart-shaped, deep rich green, fading with tones of bright clear yellow. A profusion of flowers in early spring, almost concealing the branches, of a beautiful rose-pink color. They form a lovely contrast with the white flowers of the Dogwood. Prefers rich, fertile ground and will grow either in shade or in the open.

Black Walnut is One of the Most Valuable Timbers Grown in the United States

Grow a black walnut orchard on your farm. The trees will produce the finest, the most valuable timber, and at the same time yield quantities of the richest nuts, whose kernels are marketed in abundance at a good price. You have, at least, "odd nooks" on your farm that will grow a few trees, if no more; let them grow walnuts for you.

	Per 25	Per 100	Per 250	Per 1000

OAKS. The Oaks are one of the most majestic trees. Their build is powerful, branching system rugged, wood valuable. Their acorns are the food of many of our small woods friends and domestic animals. Rugged, long-lived and handsome, they are perfect for roadside, lawn or forest. We offer the Red, White, Chestnut and Willow Oaks.

	Per 10	Per 25	Per 100
6 to 12 inch S.	\$.60	\$1.25	\$ 3.50
12 to 18 inch S.	.85	1.75	5.00
18 to 24 inch S.	1.25	2.50	8.00

Black Locust

Your farm will always need fences. Your fences will always need posts. The black or yellow locust grows the best of posts and quickly. Make your idle or waste land produce these needed posts. The black or yellow locust will grow on your waste or idle lands, will cover them up, will stop them from washing away, and will make the land rich and yield you a profit all at the same time. What better would you want?

	Per 25	Per 100	Per 250	Per 1000

BOYD'S SPREADING JUNIPERS

Boyd's Coniferous Evergreens

SMALL EVERGREENS

We have some junior size Evergreens, which are two-year-old field grown, which we can dig bare root and pack in moss and ship via express. These plants should be worked around the first year in order that they develop into specimen plants. If they are cared for properly they will quickly become specimen plants and will double or triple in value.

Best Ornamental Lawn and Street Trees

STRAIGHT STEMS — WELL BRANCHED — HEAVY-ROOTED — BIG VALUES

Plant trees for your comfort and satisfaction and to enhance the value of your property. The magnificent beauty of great trees may add thousands of dollars of value to your estate, and their cool shade will be a continual cause for happiness. The appealing beauty of weeping willows, the charm of tall-pointed Lombardies and the splendor of maples can be yours for a small cost and very little care.

Maples

852 SILVER MAPLE (*Acer dasycarpum*)

A large tree with wide spreading branches and pendulous branchlets. A rapid growing, large size. Valuable for producing quick shade. Leaves bright green above and silvery white beneath, turning pale yellow in autumn.

	Each	Per 3	Per 10
5 to 6 feet	\$.75	\$2.00	\$6.00
6 to 8 feet	1.00	2.50	8.00

853 RED OR SCARLET MAPLE (*Acer Rubrum*)

A large tree with upright or spreading branches, forming a comparatively narrow, round head. Leaves light green on the upper with more or less pubescent on the lower surface, turning in autumn to brilliant shades of scarlet and orange. Flowers in early spring or late winter bright scarlet or red.

	Each	Per 3	Per 10
5 to 6 feet	\$.75	\$2.00	\$6.00
6 to 8 feet	1.00	2.50	8.00

854 SUGAR MAPLE (*Acer saccharum*)

This is one of the most desirable shade and ornamental trees. It is always erect and neat in appearance, adapting itself to a variety of situations, except heavy ground. A permanent shade tree, taking on vivid tints of autumn color.

	Each	Per 3	Per 10
5 to 6 feet	\$.75	\$2.00	\$6.00
6 to 8 feet	1.00	2.75	7.50
8 to 10 feet	1.50	4.00	12.00

CHINESE ELM

One of the most popular and noted trees for its quick growth. Small dark green leaves. No tree will make a windbreak as quickly as these young Chinese Elms. They leaf out early in the spring and the leaves hang on late in the fall.

	Each	Per 3	Per 10
5 to 6 feet	\$1.00	\$2.50	\$7.00
6 to 8 feet	1.25	3.25	9.00

MIMOSA TREE (Silk tree)

Fernlike foliage with fragrant pink blossoms in summer. The foliage forms a densely rounded head, almost umbrella like.

	Each	Per 3	Per 10
18 to 24 inch	\$.50	\$1.25	\$3.50
2 to 3 feet	.75	2.00	6.00

AMERICAN SYCAMORE (*Platanus occidentalis*)

A large and lofty tree with massive branches. Where a tree of quick effect is wanted, one clean in habit of growth, luxuriant of foliage and easy to transplant, the lesson of Nature in distributing it so liberally should be accepted. The bark is silvery or grayish in winter, making it outstanding.

	Each	Per 3	Per 10
5 to 6 feet	\$.75	\$2.00	\$6.00
6 to 8 feet	1.00	2.50	7.50

NATIVE ASH (*Fraxinus Americana*)

A lofty tree with spreading branches, forming a pyramidal or round topped crown. This variety is similar in appearance to the Blue and Green Ash. Foliage dark green and lustrous, fading in autumn with tones of purple and yellow. Desirable lawn tree that does well in dry, moist, and lime soil.

	Each	Per 3	Per 10
4 to 5 feet	\$.60	\$1.40	\$4.25
5 to 6 feet	.80	2.00	5.00
6 to 8 feet	1.00	2.50	7.50

MAIDEN HAIR TREE (*Ginkgo*)

A remarkable tree of spreading growth in age. Deep green, thick leaves, similar in shape to those of the maidenhair fern. Rapid grower and very hardy. As a specimen or avenue tree it excels, having a very picturesque outline and retaining its leaves until very late autumn.

	Each	Per 3	Per 10
12 to 18 inch	\$.50	\$1.40	\$4.00
18 to 24 inch	.60	1.60	5.00

856 TULIP POPLAR

A tall, pyramidal trunk which rises to a great height and is clothed with a splendid foliage of large, glossy leaves. Large, tulip-like flowers are borne in the spring and are a greenish yellow and orange in color.

	Each	Per 3	Per 10
5 to 6 feet	\$.85	\$2.25	\$ 6.50
6 to 8 feet	1.00	2.50	7.50
8 to 10 feet	1.50	3.75	10.00

858 LOMBARDY POPLAR

A tall columnar tree of picturesque aspect. One of the characteristic trees of Lombardy and other parts of Italy. Leaves triangular, the borders serrate, dark green, borne in flattened petioles, moving freely in the wind. Good for screening purposes or for background.

	Each	Per 3	Per 10
3 to 4 feet	\$.35	\$1.00	\$3.00
4 to 5 feet	.45	1.25	4.00

860 SWEET GUM

A shapely tree with slender corky-ridge branches, forming a pyramidal head. The glossy foliage in summer, the brilliant color in the fall.

	Each	Per 3	Per 10
4 to 5 feet	\$1.25	\$3.50	\$10.00
5 to 6 feet	1.50	4.00	12.00

862 GOLDEN WEEPING WILLOW

This golden bark variety has proven the hardiest and thriftiest growing and most beautiful of all the weeping willow varieties. Our trees are exceptionally fine.

	Each	Per 3	Per 10
4 to 5 feet	\$1.00	\$2.75	\$ 7.50
5 to 6 feet	1.25	3.50	10.00

864 WEEPING WILLOW (*Salix Babylonica*)

One of the most graceful of the willows. It is a large tree with slender pendent branches. Leaves narrow, tapering to a long point, bright green.

	Each	Per 3	Per 10
4 to 5 feet	\$1.00	\$2.75	\$ 7.50
5 to 6 feet	1.25	3.50	10.00

MIMOSA TREE

CHINESE ELM

Boyd's Small Fruits

Grapes

Grape vines will produce more fruit and furnish more real pleasure than any known fruit, considering investment.

RED GRAPES

401 CATAWBA (Red)

Large, sweet and aromatic, good quality.

WHITE GRAPES

404 NIAGARA (White)

The leader of all in white grapes.

BLACK GRAPES

402 CONCORD (Black)

Is considered one of the best grapes—the old favorite.

403 MOORES EARLY (Black)

Ripens early, good market berry.

PRICES ON GRAPES

	Each	Per 10	Per 100
One-year	\$.30	\$2.50	\$20.00
Two-year	.40	3.50	30.00

Strawberries

Everbearing Strawberries

425 GEM

Hardy, disease resistant, and one of the biggest crop producers. Starts bearing 60 days after planting and continues until Fall, when planted in Spring.

PRICES EVERBEARING PLANTS

	Per 25	Per 100	Per 500
	\$1.50	\$4.00	\$15.00

Seasonal Strawberries

431 AROMA

Best late strawberry. It cannot be beaten for quantity or quality of fruit produced. Plants show no weakness of any kind.

428 BLAKEMORE

Beautiful bright red berry with firm flesh and wonderful flavor. Heavy foliage protects fruit from sun—berries remain on vine a considerable time after ripening. Bears a big crop.

STRAWBERRY PRICES

	Per 25	Per 100	Per 500
	\$1.15	\$3.10	\$9.70

CATAWBA GRAPES

RASPBERRIES

485 CUMBERLAND BLACKCAP

The largest and most productive black Raspberry. Ripens medium-early and continues throughout the raspberry season. Very hardy and the most profitable market sort.

486 LATHAM RED

Largest red Raspberry; a thrifty grower that will withstand zero temperatures. Tremendously productive, and the large, attractive red berries are of the best quality.

487 ST. REGIS RED

Bright crimson berry of large size, firm and meaty. Fruit commences to ripen with the earliest and continues bearing on young canes until October. Very prolific and a good shipper.

PRICES ON RASPBERRIES:

	Per 10	Per 25
Red	\$1.50	\$3.00
Black	1.00	2.00

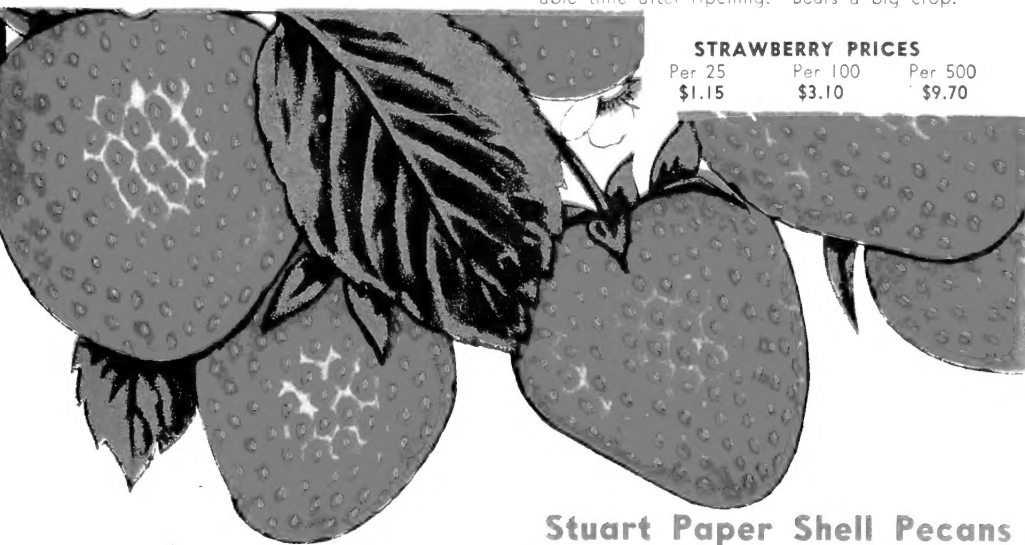

BOYSENBERRY

496 GIANT BOYSENBERRY

Berries extra large, attractive and of fine flavor. Taking the buyers wherever offered. The tremendous yields the Boysenberry makes surely will cut down production cost, and if sold only at ordinary berry prices a good profit can be realized. The Boysenberry with us is perfectly hardy and we are of the opinion it can be grown successfully as far north as Vermont if given winter protection.

PRICES ON BOYSENBERRY:

	Per 10	Per 25
	\$1.50	\$3.00

BLAKEMORE
STRAWBERRY

Stuart Paper Shell Pecans

Very large, oblong, marked with dark color shell medium thickness; flavor rich and sweet; nuts averaging 40 to 60 per pound. One of the earliest and heaviest bearers. No one will make a mistake in planting largely of this variety as it succeeds on the different soils, especially on the clay soils of the northern portion of the cotton belt.

	Each	Each	Each
18-24 in.	\$1.75;	2-3 ft.	\$2.25;
3-4 ft.			\$2.50

STUART PECAN

CHESTNUTS

CHINESE CHESTNUTS

(Blight Resistant—Bears in 3 to 4 yrs.) Plant in well-drained soil. Full sunlight if possible, for commercial planters, plant 40 feet apart. Trees grow to a medium size. If possible use well-rotted manure around them and when they bear use commercial fertilizer with high potash. The meat of the nuts is excellent, compares favorably to the American Sweet Chestnut.

1-2 Feet	\$.75 Each
2-3 Feet	1.00 Each

Plant two trees for pollination

Nut Trees Give Both Shade and Food

Flowering Trees and Shrubs

FLOWERING TREES

804 WHITE FLOWERING DOGWOOD

This is a tree of beauty, in the spring covered with velvety white blossoms. Throughout the summer green leaves, turning to crimson in the fall, and full of red berries in the autumn.

	Each	Each
2-3 ft.50	3-4 ft.75

806 RED BUD (Judas Tree)

A fast-growing tree with large, leathery, heart-shaped leaves, and before the foliage appears the tree is covered with a profusion of reddish-purple flowers.

	Each	Each
2-3 ft.50	3-4 ft.75

810 PURPLE LEAF PLUM

A handsome plant, with deep purple leaves

and deep wine red fruit; holds its color all summer.

	Each	Each
2-3 ft.50	3-4 ft.75

812 PEPPERMINT PEACH

This new flowering tree is becoming more popular as people are seeing it in bloom. The bloom is white, semi-double with red stripes, resembling that of the peppermint stick of candy.

814 DOUBLE RED FLOWERING PEACH

816 DOUBLE WHITE FLOWERING PEACH

	Each	Each
18-24 in.50	2-3 ft.75

FLOWERING SHRUBS

500 PINK FLOWERING ALMOND

This lovely shrub blooms before the leaves appear in the spring, completely covered with small, pink, rose-like blooms. Excellent for individual or group-planting.

	Each	Each
18-24 in.50	2-3 ft.75

601 BARBERRY THUNBERGI

Green-leaf barberry. Green foliage throughout the summer, turning to brilliant scarlet in autumn, covered with red berries all winter.

	Each	Each
12-15 in.25	15-18 in.35

601-A RED LEAF BARBERRY

Reddish-purple foliage throughout summer, turning to fiery red in autumn, with red seed in fall and winter. Plant in full sunlight for best results.

	Each	Each
12-15 in.40	15-18 in.50

606 RED CRAPE MYRTLE

The famous Southern shrub, starts blooming in mid-summer and blooms until frost. Large clumps of lacelike flowers. Has proven hardy in the northern states. Blooms the first year planted.

606-A PINK CRAPE MYRTLE

Same as the red, except watermelon pink flowers. Blooms on one-year wood, an excellent shrub.

	Each	Each
18-24 in.50	2-3 ft.75

658 ABELIA GRANDIFLORA

The graceful drooping stems and branches are covered with dark-green, glossy leaves from

spring until frost. The blooms cover the plant with white flowers, flush with pink, which are borne in clusters.

	Each
18-24 in. bare root75
2-3 ft. bare root	1.00

632 SPIREA VAN HOUTEI

While in bloom it resembles the Hills of Snow, with pure white flowers borne in dense clusters along the whole length of the branches.

	Each	Each
18-24 in.35	2-3 ft.50

628 BUTTERFLY, PINK CHARMING

A new butterfly bush, with long sprays of beautiful pink flowers often 10 to 15 inches long, blooms all summer.

	Each	Each
18-24 in.50	2-3 ft.75

FRENCH LILACS

651 PRESIDENT GREVEY

Double, light blue, immense panicles and symmetrical.

652 CHARLES X

Single, reddish purple, very beautiful and one of the best and most popular of the single lilacs.

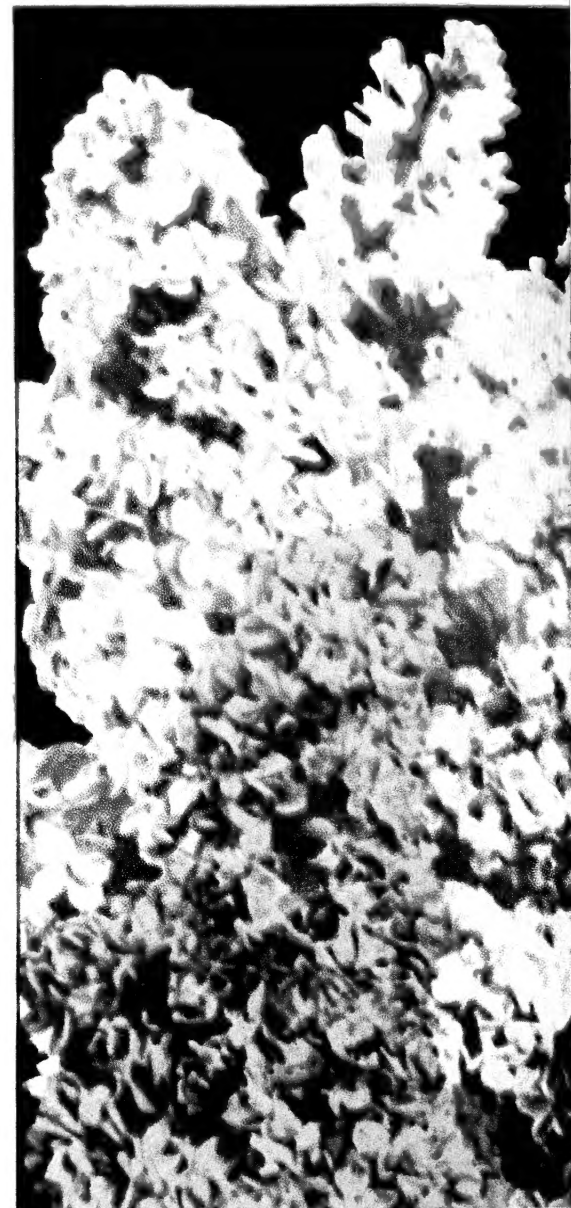

653 NEGRO

Single, dark, violet-purple, beautiful blooms.

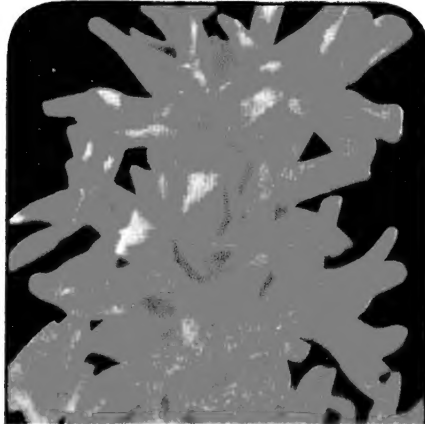

654 WILLIAM ROBINSON

Purple and grows so that it can be used for cut-flowers.

	Each	Per 10
12-18 in.50	4.50
18-24 in.75	6.50

FRENCH LILAC

614 GOLDEN BELL (Forsythia)

One of the first shrubs to bloom in the spring. Golden bell-shaped flowers cover the plant. Beautiful green foliage all summer.

	Each	Each
18-24 in.35	2-3 ft.50

RED LEAF BARBERRY

818 HOPA FLOWERING CRAB

It develops into a beautiful graceful, medium sized tree, and the tree when in bloom is covered with large, single, deep-rose colored blossoms. Reddish fleshed fruits and reddish-purple foliage.

	Each	Each
3-4 ft.	1.00	4-5 ft. 1.50

HEDGE PLANTS

GUARANTEE

we warrant to dig, pack and ship good, clean, thrifty, well-grown trees and plants in good growing condition. Failure may result from improper planting, lack of moisture, frost, floods, over-fertilization, etc., and we cannot guarantee continued growth after stock is planted on customer's premises because this is entirely beyond our control. Claims, if any, for damages or inferior stock, must be made within ten days after receipt.
